Post Study Work Visa, valid until May 2029

PROFESSIONAL SUMMARY

Full Stack Developer with 6+ years building and shipping production Ruby on Rails applications across payments, travel booking, and cybersecurity platforms. Experienced in PCI-DSS compliant payment systems, GraphQL and RESTful API design, and PostgreSQL optimisation, with a track record of mentoring engineers and leading sprints within ISO 27001 certified environments.

KEY SKILLS

Ruby on Rails • PostgreSQL • GraphQL • RESTful APIs • React • RSpec / TDD • PCI-DSS payments • AWS • Docker • Team leadership

WORK EXPERIENCE

Full Stack Engineer Intern

Nov 2025 to Feb 2026 | Hybrid

FoodME Ltd (trading as Favour) — Auckland, New Zealand

- Delivered review, rating, and recipe management features for a React Native and Django application as part of the Master of Software Engineering industry placement at Yoobee Colleges, maintaining production stability throughout.
- Contributed across the full agile cycle — sprint planning, PR review, and releases — debugging cross-platform issues in development and production environments.

Software Developer

Mar 2023 to Mar 2025 | Remote

Webbnet — Queensland, Australia

- Sole developer on the Work Skills RTO platform, modernising a legacy Ruby on Rails system and delivering new features across the product.
- Optimised the portfolios endpoint by rewriting an inefficient SQL query and eliminating N+1 queries, reducing load time from ~2 minutes to ~30 seconds (approximately 75% faster).
- Designed and built an AVETMISS NAT reporting engine producing distinct formats for Queensland, New South Wales, and NCVET national submissions.
- Built a certificate generation and public verification portal to confirm document authenticity and reduce credential fraud risk.

Senior Software Engineer

Jan 2019 to Sep 2022 | Hybrid

WellDev — Dhaka, Bangladesh

- Advanced from intern to Senior Software Engineer in 3.5 years; led sprint planning, code reviews, and mentoring of junior engineers within an ISO 27001 certified environment.
- Helped integrate a PCI-DSS compliant Credit Card Vault into the WellTravel booking platform, enabling secure card processing across a multi-region travel system.
- Integrated Stripe with 3D Secure, Paygate, and PayFast for live financial transactions across multiple regional markets.
- Architected a monorepo with a Rails backend and React frontend communicating over GraphQL, streamlining deployment and developer workflow.
- Built Elasticsearch-backed filtering and sorting for the WellTravel booking engine.

EDUCATION

Master of Software Engineering

Apr 2025 to Apr 2026

Yoobee Colleges Limited — Auckland, New Zealand

Bachelor of Science in Computer Science and Engineering

Aug 2013 to Dec 2018

North South University — Dhaka, Bangladesh

AWARDS & RECOGNITION

Best Paper Award

9th IEEE Control and System Graduate Research Colloquium | Aug 2018 | Shah Alam, Malaysia
